HP Series Pop-Up

FEATURES
- Efficient design for maximum value
- Internally supported wiper seal design
- Patented lateral discharging flush plug
- Stainless steel retraction spring
- High impact virgin ABS plastic construction for body, piston and cap
- Spring-loaded ratchet on all models for directional adjustment of spray pattern
- Pressure activated chevron seal design minimizes flushing ‘blow by’ and seals at low pressures
- Male threaded piston, to accept fixed or adjustable arc nozzles with female threads

OPERATING SPECIFICATIONS
- Operating pressure: 15-70 PSI
- Recommended working pressure: 30 PSI

DIMENSIONS
- Inlet 1/2” female pipe thread (F.P.T.)

OPTIONS AVAILABLE
- Can be ordered with Adjustable Arc (AA) nozzles installed (consult price list)
